

OBIEE 11g Front End Development, Design, and Best Practices

Course Overview

Our OBIEE Front End Development course is an all inclusive series of training sessions and labs, developed in-house and delivered by one of Rittman Mead's very own consultants. Whether a Business User or Developer, this deep-dive course takes a second look at OBIEE and offers insight into Rittman Mead's own design philosophy and seeks to extract additional value out of an already extremely versatile tool. Allow the experts at Rittman Mead, who've amassed countless hours of experience in analytics across many different industries to help your team discover all the available possibilities in OBIEE.
