

OBIEE 12c Front End Development and Data Visualization

Course Overview

Our OBIEE 12c Front End Development & Data Visualization course runs for 2 days and covers everything you need to know to develop reports and dashboards, including new features such as Visual Analyzer and data-mashups. It assumes no prior knowledge up-front, but for users of earlier versions it also covers the key differences from the 11g version.

Who Should Attend

Developers, Consultants, Project Managers, Tech Leads, and DBAs

Previous Knowledge

None Required
